MHR SYSTEM (MECHANICAL HOPPER RELEASE)

Description: The Roura MHR system is designed to allow the dumping of a hopper without leaving the forklift (see operational video [here](#)). This revolutionary release system is only available for Roura self dumping hoppers, available in left or right handed configurations.

Note: Available on all models except 034 & Behemoth hoppers.

A container with a MHR option is not returnable

“FOR ALL OF YOUR MATERIAL HANDLING NEEDS!”
